

Safety Improvement Initiative

February 2024 Update

In our commitment to continually improving safety measures, the Momentum Facilities team began a phased safety mitigation plan at all 4 campuses. Periodic updates will be provided to stakeholders.

Identify safety improvement areas

Building walkthroughs were completed with safety officers, school administrators, and a comprehensive list of safety recommendations were made

PHASE 1

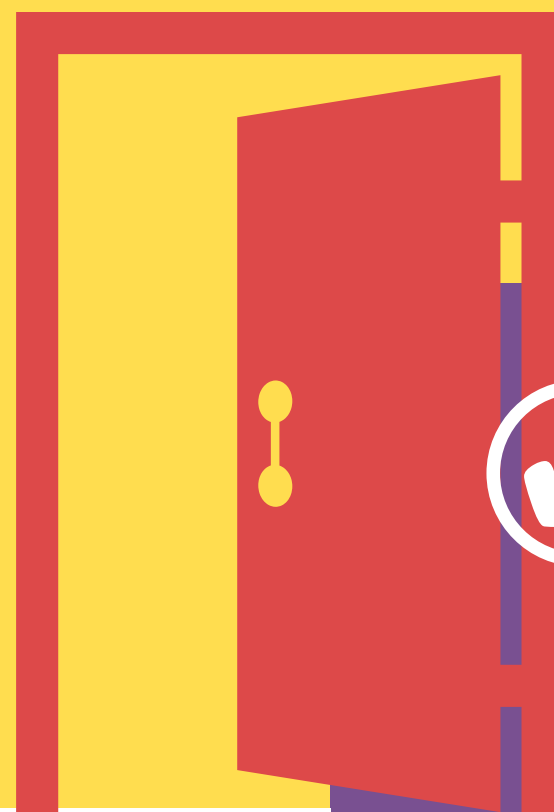

- Revise, update annual plan for safety checks, walkthroughs, and training
- Door alarms on all exterior doors
- Classroom door handles locked at all times per emergency procedures
- Install external lockboxes with emergency documentation and keys for first responders

PHASE 2

In Progress

- All classrooms numbered inside and out
- Tints placed on all large glass doors, ground level windows
- Larger Monitors for security cameras
- Exterior safety signs

PHASE 3

Considerations

- Additional internal security cameras at each campus
- Security door project, Fox Park
- Interior door locking mechanism to be determined

School Specific

- 2 recommendations were made for each campus that are being addressed, specifically around doors and locking procedures
