

INTERNET SAFETY POLICY

For EAGLE College Prep

Introduction

It is the policy of EAGLE College Prep to: (a) prevent user access over its computer network to (or transmission of) inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)] and FCC Ruling 11-125.

Definitions

Key terms are as defined in the Children's Internet Protection Act.

Access to Inappropriate Material

To the extent practical, technology protection measures (or "Internet filters") shall be used to block or filter Internet (or other forms of electronic communications) access to inappropriate information.

Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes.

Inappropriate Network Usage

To the extent practical, steps shall be taken to promote the safety and security of users of the online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications. Specifically, as required by the Children's Internet Protection Act, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called 'hacking,' and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

Supervision, Monitoring and Education

It shall be the responsibility of all members of the EAGLE College Prep staff to educate, supervise, and monitor all users as to the usage of the online computer network and access to the Internet in accordance with this policy and the Children's Internet Protection Act. Education should specifically address the following issues as stated in FCC 11-125:

- The education of minors about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms
- Safety/security of minors when using e-mail, chat rooms, other direct electronic communications
- Unauthorized access, including "hacking" and other unlawful activities by minors online

- Unauthorized disclosure, use and dissemination of personal information regarding minors
- Cyberbullying awareness and response

Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of the school director or designated representatives.
